AN ORIENTAL STATE OF Well-Being

Incorporating the art of Asian medicology with today's advanced slimming technology, Beauty 100 utilizes unique techniques that guarantee safe, balanced, and lasting results. With their fervent dedication to provide result-oriented treatments, this is the ideal destination for all those who seek a salubrious lifestyle.

Established in 2001, Beauty 100 is an integrative healing, beauty, and wellness centre that caters a vast array of services to address different body concerns - including individual health assessments, lifestyle coaching, medical slimming, and healing therapy programmes. The brainchild of Julie Zhu, Founder and Director of Beauty 100, is a staunch believer in providing comprehensive wellness and has helped several clients to attain a radiant visage and svelte figure through extensively researched and effective treatments.

With three outlets in Marine Parade, Bugis, and Kovan, Beauty 100's treatment rooms are all fully equipped with BioSpring Ionization Detox Device to administer consistent levels of Anions, which help to reactivate cell renewal and regulate the body's natural detoxifying functions. Aside from their menu of spa, slimming, and facial treatments, they also provide rejuvenating Traditional Chinese therapies: **Herbal Bath Therapy** and **Meridian Health Therapy**. An ancient Chinese ritual designed to revitalise the body's well being, Herbal Bath Therapy eliminates toxins and obesity while regulating microcirculation, digestion, and organ functions. Meridian Health Therapy addresses a range of health woes, from fatigue and abdominal pains to inflammation and asthma, through Gua Sha, Cupping, and remedial body massage.

Along with their team of well-versed therapists and commitment to bring equilibrium to your mind, body, and wellness, Beauty 100 renews your beauty - from the inside out.
